## ICE CREAM INDUSTRY.

Princess Confectionery Installs Most  
Up-to-date Manufacturing Machine.

The manufacture of ice cream is be-  
coming a great industry. A very  
few years ago ice cream was consid-  
ered by all to be a luxury. Today it  
is a recognized fact that it is a nec-  
essity and each year we find that  
more is sold than the year previous.  
A few years ago there was very lit-  
tle attention paid to its make-up.  
Anything went as long as it was cal-  
led ice cream, but today we have our  
pure food laws which require that it  
contain a certain per cent of butter  
fat and in order to obtain the requir-  
ed per cent pure cream and milk  
must be used. Then in the course of  
time competition became great and  
each and every one tried to make a  
better article than his neighbor. Big  
companies with lots of capital started  
and thanks to them they have revolu-  
tionized the manufacture. From the  
slow tiresome hand turned freezer we  
have advanced to the motor driven  
freezer of large capacity, a saver of  
both time and energy. These large  
machines were found to be the best  
ever and turned out an article far bet-  
ter than ever before, so the little mer-  
chant has at last been forced to the  
large and expensive machines.  
One of these new machines will  
soon be installed at the Princess Con-  
fectionery and when in readiness  
visitors will be welcome to come and  
watch its operations. This new ma-  
chine is one of the famous Every,  
Thompson, Brine Freezers and will  
cost \$400.00 installed and if money  
talks it ought to turn out SOME ice  
cream.

We are specializing in this line and  
believe that our cream is the best in  
town and we earnestly ask and wel-  
come any suggestions from our pa-  
trons as to how we can better it. If  
you have never called on us we would  
appreciate very much your doing so  
at your earliest convenience. Phone  
orders filled and delivered promptly.

## WILL ERECT MILL.

Twin Peaks District is Scene of Re-  
newed Activity and Will Soon Be  
Producer.

David Gough, of El Paso, and E. M.  
Wayne, of Silver City, who have ac-  
quired the gold property known as  
the "New Strike," adjoining the Twin  
Peaks property, about ten miles from  
York station, on the A. & N. M. R.  
R., will at once begin the erection of  
a reduction mill. The machinery  
owned by the Twin Peaks company,  
also the mill at Clear Lake, a few  
miles distant, has been acquired by  
the new owners and Mr. Small, of the  
El Paso Foundry, is now on the  
ground and will have charge of the  
erection of the mill. It is known that  
a prominent eastern capitalist is as-  
sociated with Messrs. Gough and  
Wayne in the purchase of the prop-  
erty, which insures ample funds for  
operations and development.  
The purchase of the New Strike  
claims was consummated as a result  
of a thorough investigation and sam-  
pling, extending over a period of two  
months, conducted by Mr. Gough and  
the new owners are convinced there  
is ore bodies in abundance, yielding  
on an average of \$6 per ton in gold,  
that will justify the erection and oper-  
ation of the mill.  
A force of miners will be put to  
work at once and with the construc-  
tion crew at work the Twin Peaks dis-  
trict will present an unusual scene of  
activity.

There is a probability also that the  
new owners will eventually take over  
the Twin Peaks holdings. Through  
the efforts of Mr. Gough and associa-  
tes all pending litigation over the  
Twin Peaks property has been satisfac-  
torily adjusted and all suits with-  
drawn.

On the ground that it has com-  
plied with all the requirements of  
the statutes regulating fraternal in-  
surance companies, the Heralds of  
Liberty has filed application with the  
corporation commission at Phoenix  
for license and permission to trans-  
act business in Arizona. The appli-  
cation states that the Heralds of Lib-  
erty is a foreign fraternal beneficiary  
society, and that it has observed all  
the requirements of Article VI, Title  
24 of the Revised Statutes. The  
company was recently deprived of  
its license to do business in the state,  
following an investigation by the  
commission.

Prescott physicians are making elab-  
orate plans for entertaining the state  
Medical Association of Arizona and  
others connected with the health  
work of the state on June 15th. The  
program will include auto trips, ban-  
quets and functions for the ladies.

not overheat the kitchen. Especially  
good for hot summer cooking. Made
